4 bedroom house plans offer space and flexibility. Four bedroom house plans (sometimes written "4 bedroom floor plans") are popular with growing families, as they offer plenty of room for everyone. At the same time, empty-nesters who expect frequent out of town guests (like grandchildren, adult children, family friends, etc) may also appreciate an extra bedroom or two.

4 Bedroom House Floor Plans & Architectural Home Designs

Four bedroom homes come in nearly any style, type and size. Approximately one-third of our homes have 4 bedrooms. And they range in size from just under 1,900 sf to almost 9,000 sf. Two-story homes built from 4 bedroom house plans often have the master on the main level, and the three others upstairs, but this is of course not always the case.

Mountain home plans are all about embracing the outdoors. In the collection below, you'll discover mountain house plans that sport spacious decks and patios, posh porches, and much more. Mountain home plans also typically boast a lot of natural materials on both their exterior and interior, which further enforces and honors the idea that nature is all around you.

Mountain House Plans | Mountain Architectural Home Designs

Be careful to use the correct indexed numbers -- to save space, most architectural scales will use one set of tick marks for two scales. For example, most scales pair "1/4 inch equals 1 foot" with "1/8 inch equals 1 foot," although "1/4 inch equals 1 foot" is two times larger than "1/8 inch equals 1 foot."

How to Calculate Blueprints With an Architect's Ruler | eHow

As a rule, architectural plans are drawn to a "scale". An example would be, 1 inch (2.5 cm) equals 10 feet (1"=10'), so measuring between to walls on the plan sheet means for each inch, the distance is 10 feet (3.0 m). A scale rule will make this much
