Boeing board to call for structural changes after 737 Max ...

The later series 200 had broad engine pylons and the inboard leading edge flaps extended to the fuselage. The MTOW of 49,440kgs and MLW of 44,450kgs were often limiting so Boeing made structural changes to increase these weights and called the redesigned

On Dec. 28, 1967, Lufthansa took delivery of the first production 737-100 model, in a ceremony at Boeing Field. The following day, United Airlines, the first domestic customer to order the 737, took delivery of the first 737-200. The last 737-200 was delivered Aug. 8, 1988. By 1987, the 737 was the most ordered plane in commercial history.
