Review Exercises (Ch 3-13) · Statistics

Chapter 3 Review Exercises Statistics 1040 Dr Statistics Chapter ... Answer: The median of a data set is the middle value when the data items are arranged in ascending order. Once the data values have been sorted into ascending order (we have done this above using the sort() function) it is clear that the middle value is 3.4 since there are 3 values to the left of 3.4 and 3 values to the right.
