The Nikon D300 made quite an impact when it was first launched - enough to prompt us to conclude: 'There's simply no better semi-professional digital SLR on the market.' And, in many respects, it is still the camera to beat in that class - nearly two years later and it is still able to command essentially the same price as at launch (though the strong Yen has pushed all prices up). And this ...

The D60, which is replaced by the D3000, was Nikon's best-selling DSLR, and it is the success of products like this that drives the development of everything from low-end Coolpix models to the recently announced professional level D3s.

Nikon D3000 Review: Digital Photography Review

The Nikon D300S is a 12.3-megapixel DX format digital single-lens reflex camera (DSLR) announced by Nikon on 30 July 2009. It replaced the D300 as Nikon's flagship DX format DSLR adding HD video recording (with autofocus). It has some similarities to the Nikon D700, with the same resolution, but has a smaller, higher-density sensor. The D300s was superseded by the Nikon D500, announced on ...
