You can use an e-reader app on your computer, too, to make reading and organizing your ebooks easy.

## **Dichotomous Classification Key Freshwater Fish**

Background: A dichotomous key is a tool that allows the user to determine the identity of items in the natural world, such as trees, wildflowers, mammals, reptiles, rocks, and fish. Keys consist of a series of "either or" choices that lead the user to the correct name of a given item. "Dichotomous" means "divided into two parts". Therefore, dichotomous keys always give two choices in each step.
