Selco Panel Saw Troubleshooting

If your panel saw won't turn on, check several things. To start, is the panel saw plugged in? Always check the plug to ensure that the plug is firm in the outlet. If everything seems fine, check the circuit breaker to see if it's been tripped. If it has, reset it. Check the outlet by plugging in a different appliance to see if it works. If not, you'll need to repair the outlet.
